## **Newsletter No. 163a** **Special HOBART SHOW Report** **Edition 2017**

### **Royal Hobart Show**

From John Penprase – Coordinator

Another 'boat and plane making' show event has been successfully completed. Nearly 1300 units were assembled over the four days. Wednesday was the busiest day with nearly 500 units assembled by 9 assistants between 10am and 2pm!

Thanks must go to the Special Interest Group members who spent many Saturday mornings making 1300 items and also to those who helped assemble them at the show.

They were: John Grubb, Ken Dowling, Brian Ridler, Clinton Luckock, Graeme Clark, Murray Jessup, Brian Weeding, John Sheppard, Geoff Denny, Ray Collins, Mike Dowd, Rod Daly, Scott McKenzie,

and George Harris.

Thanks also to the 12 St Virgil's College Students who helped on Friday and to their teacher, Barry Maxwell for organizing their roster.

Again we received many complimentary remarks from parents, teachers and carers. Two young girls came back the next day to show us how they had painted their boats!

Once again, a personal thankyou to all those involved who make this event possible.
